EXPERIENCE

- **Full Stack Developer Intern | SKXYWTF** Sept 2024 - Oct 2024
Developed and maintained a responsive dashboard with complex components, including a collection of interactive charts and data visualizations. Utilized technologies such as JavaScript, TypeScript, Next.js, and Tailwind CSS to build scalable and responsive layouts.
- **Full Stack Developer Intern | Sponosogram** Oct 2024
Developed and maintained 10+ dynamic React components, including complex features like a user dashboard, navigation sidebar, and interactive search bar using Next.js, TypeScript, and React. Converted UI/UX designs into fully functional and interactive web interfaces, ensuring optimal performance across different browsers using HTML, Tailwind CSS, and React.

PROJECTS

- **QuickCart | NextJs, TypeScript, Tailwind CSS, Stripe** [Project Link](#) | [Github Link](#)
Developed a dynamic ecommerce store integrated with EcommerceCloud(CMS for managing your inventory) for efficient product browsing, filtering, and purchasing. Key features include quick product preview, add-to-cart, category filters, detailed product pages, and a seamless checkout process. This enhanced user engagement, increased sales, and improved customer retention.
- **EcommerceCloud (CMS) | NextJs, TypeScript, Prisma, Stripe, Clerk** [Project Link](#) | [Github Link](#)
Developed EcommerceCloud, a multi-store management dashboard CMS, utilizing Prisma ORM and MySQL for robust data handling. Integrated Clerk for secure user authentication and enabled efficient administration of categories, billboards, product sizes, colors, and store configurations from a unified platform
- **DeployMate | NodeJs, Docker, AWS, NextJs, Kafka, Prisma**
DeployMate streamlines React project deployments hosted on GitHub, utilizing AWS (EC2, S3) for backend infrastructure and Docker for containerization, boosting deployment speed.. Integrated Kafka and ClickHouse for real-time messaging and data processing, with Socket enabling real-time server-client communication.

TECHNICAL SKILLS

- **Programming Language** : Java, Python, TypeScript
- **Full Stack Development** : NextJs, React, NodeJs, HTML, CSS
- **DataBase**: MySql, Postgresql, MongoDB
- **Developer Tools** : VS Code, Git, PostMan, GitHub Actions
- **Technology / Framework**: Linux, Docker, Kubernetes, Kafka, Redis,
- **Cloud Services** : AWS(proficient), GCP(familiar)

ACHIEVEMENTS

- Contest Ranking - 1620 on Leetcode
- Solve 400+ DSA Problems on Leetcode
